

SEAN O. SALIVA

AI PRODUCT & APPLICATION DEVELOPER | AI WORKFLOW ARCHITECT | BUSINESS INFRASTRUCTURE BUILDER

Fort Lauderdale, FL | (954) 709-7709 | s.saliva@thecreativemindsstudios.com | seansaliva.com | linkedin.com/in/sean-saliva

AI-focused product and application builder with 25+ years shipping public-facing digital platforms, regulated UX systems, LLM-augmented workflows, and business-critical infrastructure. Combines hands-on React/TypeScript/Node development with product strategy, systems thinking, stakeholder leadership, and compliance-aware delivery. Proven ability to move from ambiguous business problem to deployed product: TamaracTV, Civic Central, AI production pipelines, fintech chatbot flows, high-traffic e-commerce experiences, and municipal digital systems.

SELECTED AI / PRODUCT PROOF

AI Production Pipeline Built LLM-driven scripting, AI-assisted editing, and automated content workflows that compressed creative turnaround by 3-5x.	Civic Central Founded a civic-information video platform with 60%+ average viewer retention, proving product-market fit in a non-sensationalized category.	TamaracTV Designed and deployed citywide live broadcast and digital-display infrastructure; earned the City of Tamarac Excellence in Innovation Award.

CORE AI, APPLICATION & INFRASTRUCTURE STRENGTHS

AI Application Development: OpenAI APIs, Anthropic Claude APIs, LLM workflow design, prompt systems, AI-assisted development, human-in-the-loop production systems	Product & Systems Strategy: Product discovery, roadmapping, technical product strategy, analytics instrumentation, customer experience systems, product-market validation
Front-End / Full-Stack Build: React, TypeScript, JavaScript ES6+, Node.js, HTML5, CSS3, Bootstrap 5, responsive web applications, component-based UI	Business Infrastructure: CMS platforms, municipal digital infrastructure, broadcast/display systems, vendor management, procurement, executive stakeholder alignment
Compliance-Aware Delivery: FINRA-regulated workflows, WCAG 2.1 AA accessibility, municipal procurement, public-records sensitivity, regulated fintech UX	Design & Content Systems: Figma, Adobe Creative Suite, Premiere Pro, After Effects, brand systems, content operations, editorial pipelines

PROFESSIONAL EXPERIENCE

Lead Consultant - Product, AI & Digital Strategy | Creative Minds Studios Nov 2024 - Present · Fort Lauderdale, FL

- Lead an independent AI product and application-development practice, turning civic-information, content-operations, and government-adjacent business problems into shipped AI-assisted workflows, digital products, and production systems.
- Architected a proprietary LLM production pipeline using OpenAI/Claude-assisted scripting, prompt-chain workflows, AI-assisted editing, reusable content modules, human QA gates, and automated publishing operations; reduced creative turnaround 3-5x while preserving compliance-grade review standards.
- Founded and operate Civic Central as a deployed AI-enabled civic-information product with 60%+ average viewer retention; own product strategy, workflow architecture, analytics instrumentation, distribution systems, and continuous iteration from user data.
- Prototype and ship AI-assisted application layers for research synthesis, script generation, content transformation, editorial operations, and multi-platform publishing - translating ambiguous civic/customer information needs into reliable, repeatable product infrastructure.

Strategic Creative & Web Partner | Infinite Source Communications 2010 - Present · Government Contracting / Public Relations

- Serve as long-term AI-forward creative and technical partner for government-contracting communications, helping convert federal-audience messaging, proposal language, capability narratives, and campaign assets into reusable, automation-ready content systems.
- Build web platforms, brand systems, agency-day decks, capability statements, and integrated digital/print campaigns with structured content models that support rapid customization, AI-assisted drafting, and compliance-conscious human review.
- Develop procurement-aligned messaging frameworks and knowledge assets for federal-facing clients - the same information architecture foundation required for retrieval-augmented content workflows, sales enablement, and AI-assisted business development operations.

Webmaster & Digital Infrastructure Specialist | City of Tamarac Jul 2023 - Nov 2024 · Tamarac, FL

- Designed, built, and deployed TamaracTV, a citywide live-broadcast platform and multi-site digital-display network managing streaming, scheduling, and screen infrastructure across municipal facilities.
- Served as the city's primary digital authority for public-facing websites, municipal digital assets, emergency-adjacent communications, and mission-critical public information systems.
- Partnered directly with the Chief Information Officer on new digital initiatives, acting as technical executor from concept through production deployment.
- Coordinated with department heads, elected officials, public-safety teams, and vendors to deliver accessible, compliant digital projects on time and within municipal constraints.

Senior UI/UX Designer & Developer | All Clear Decisioning Nov 2022 - Jul 2023 · Fort Lauderdale, FL

- Built a production chatbot decisioning module from wireframes through implementation for a regulated fintech platform using React, TypeScript, and Bootstrap 5.
- Delivered responsive application layouts, compliant UX flows, and front-end product surfaces in a strict financial-services environment.

UI/UX Designer & Developer | Life Extension Buyers Club Jul 2019 - Oct 2022 · Fort Lauderdale, FL

- Owned front-end product surfaces for one of the largest U.S. supplement e-commerce platforms, serving millions of monthly users in a Sitecore-driven enterprise stack.
- Partnered with growth and merchandising teams on structured A/B testing programs that improved conversion and engagement across high-traffic product experiences.

Front-End Developer & Brand Systems Lead | Investacorp Nov 2010 - Apr 2014 · Miami, FL

- Led the UI/UX overhaul of investalink.com, a complex advisor-facing web application operating inside a FINRA-regulated, compliance-heavy environment.
- Delivered responsive development, financial reporting interfaces, document workflows, motion graphics, and a full brand system for a regulated broker/dealer.

Operations Director / Digital & Marketing Lead | Johnson Aluminum Product Mar 1998 - Jul 2016 · Fort Lauderdale, FL

- Ran day-to-day operations across an 18-year tenure, managing staff, vendors, customer acquisition, cross-department coordination, and revenue for a multi-department manufacturing business.
- Owned digital, brand, and marketing systems, creating an early foundation for the business-plus-technical operator profile used in current AI and product work.
